BUILDING AND CIVIL WORKS

INTRODUCTION

Kontek Engineering is a construction and development company. We undertake a broad spectrum of projects in the Civil and Building Works.

We bring to the job multi-disciplinary teams with Essential Capacity, Capability and Outstanding track record in undertaking and managing major engineering projects.

MISSION STATEMENT

To be the leading engineers in construction industry by providing our clients with the best design and well-built infrastructures while contributing towards the improvement of socio-economic development of the country and neighboring countries.

VISION

To design and deploy construction solutions that become contributions to the economic and social improvement of nations and to generate maximum value from the resources available in a given place.

VALUES

Project safety is our first priority.

Customer centered – Our success depends on our customer's success.

Integrity – We will treat others with respect.

Expectations – We will seek to exceed the expectations of others. **Quality** – We will deliver quality without compromise.

BUILDING VALUE

Perpetually inspired by the principles of sustainable development, the company leverages technological and organizational innovation and harnesses the power of its extraordinary human and professional resources.

POLICY

Our sustainability policy is a formal declaration of our commitment to all our stakeholders. Its aim is to provide a solid grounding for the day-to-day actions of Kontek people, in line with our core values.

BUILDING AND CIVIL WORKS

OUR BUSINESS AREAS

Kontek Engineering operates in all sectors requiring complex large – scale infrastructures, offering the following services;

- 1. Building**
- 2. Civil Works**

BUILDING DIVISION

From Industrial Development to Public Utilities, from Commercial Buildings to Residential Projects, Kontek offers services encompassing everything inside a building which makes it safe and comfortable to be in.

Our engineers have specialized knowledge in the planning, design, construction and maintenance of buildings, together with an understanding of impact on the built environment.

CIVIL WORKS DIVISION

Kontek is able to undertake bulk earthworks, heavy concrete works, large paved areas, access roads and piled foundations.

OUR COMMITMENT TO A SUSTAINABLE FUTURE

We believe that our future depends on the perfect balance between achieving our Company growth targets and the contribution that we can make to the socio-economic and environmental development of the communities in which we operate. To reach this goal, we apply the principles of sustainable development in our everyday work, making it a key part of our positioning on the global market.

We aim to meet expectations of everyone who we deal with: government and authorities, local communities, clients and partners, shareholders and employees. All of whom have their own histories and cultures, with their own values and needs

Creating shared values for our stakeholders is our greatest challenge one that we pursue every day by fostering the growth and integrity of our employees, ensuring the satisfaction of our shareholders, aiming to deliver excellence for our customers, and caring for local communities.
